Quilt Assembly

Cut all strips across the width of fabric.

1. Cut each fabric into $3\frac{1}{2}$ "-wide strips. Randomly cut the strips in various lengths from $3\frac{1}{2}$ " to $15\frac{1}{2}$ ". Cut approximately 6 to 10 pieces of each fabric.

2. Using the photo as a guide and a design wall, lay out the pieces in 16 vertical rows. When you are pleased with the arrangement, sew the pieces in each vertical row together to make a pieced strip $60\frac{1}{2}$ " long, trimming the strip as needed to achieve the required length.

3. Sew the vertical rows together and press the seam allowances in one direction.

4. Layer the quilt top with batting and backing; baste the layers together. Quilt as desired.

5. Cut the binding fabric into (6) $2\frac{1}{4}$ "-wide strips. Prepare and sew the binding to the quilt.
